

# DEWATERING HOSE AND COUPLINGS

[www.buchananrubber.com](http://www.buchananrubber.com)

FRACLINE WATER SUPPLY 200 PSI

# FRACLINE

# FRACLINE

## COUPLINGS

**Engineered For large diameter industrial pumping applications**

*-connect together groove type couplings*

**Alternative to Crimp Style hose Fittings**

*-convenience of being field replaceable*

**High Strength Alloys**

*-machined from T6 Aluminum Alloy*

**Anodized Corrosion Resistant Finish**

**Three piece clamp design**

*-bevelled edge on clamps reduces deployment snags*

**Socket Head Cap Screws with nuts**

*Available for hose in sizes 6", 8" and 10"*

## HOSE

**Fracline Nitrile**

**Specially designed for mining, fracking, dewatering, water bypass operations, petro-chemical refineries(Resists Aromatics)as well as main sludge and manure feed lines**

*-Circular woven polyester yarn reinforcement*

*-Black abrasion and oil resistant nitrile rubber tube and cover extruded through the weave*

*-Temperature range of -30C to +80C(-22F to +180F)*

*-Elongation less than 1.5% and available in 660 ' lengths*

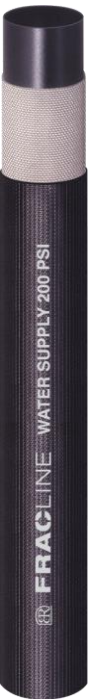

**Fracline TPU**

**For use in various water discharge applications. It's superior abrasion resistant polyurethane cover makes it ideal for use in areas of rugged terrain. It can also be used in agricultural environments for conveyance of chemicals. Specially formulated materials allow this hose to be used for low temperature applications.**

*-Circular woven synthetic yarn reinforcement*

*-Black chemical resistant EPDM rubber.*

*-Temperature range of -40C to +70C(-40F to +158F)*
